

Global Health Publications by UW Faculty

This list of publications is a work in progress which identifies articles, books, and other resources written by faculty staff and affiliates of the University of Wisconsin's Center for Global Health. The publications are divided into 16 different global health topic areas (listed below). Within sections articles are arranged by date, starting with the most recent. If you would like to suggest additions to this list, either your own publications or those of other UW affiliated scholars, please contact Annie Lietzow (lietzow@wisc.edu), program assistant at the Center for Global Health. The list is updated on an on-going basis.

Global Health Topics:

1. General References	9. Humanitarian Crises, War, Disasters and Refugee Health
2. Maternal-Child Health	10. Economics, Poverty and Health
3. Communicable and Tropical Diseases	11. Anthropology and Cultural Diversity
4. Nutrition	12. Health Systems Development, Policy and Management
5. Veterinary Medicine	13. Ethical and Equity Issues
6. Mental Health	14. Education and Training for Health Workers and Communities
7. Pharmacy	15. Community and Public Health
8. Environmental and Occupational Health	16. Chronic Diseases

The list was most recently updated May 2009.
